Petition by : Siobhan Chin London, United Kingdom

As many of you already know, my brother is critically ill in intensive care in Croydon University (Mayday) Hospital.

Marcus' family should have the sole right to make decisions concerning his health. This seems like another case of the NHS serving the UK African community very badly! Things should not come to the need for any petitions!

Multiply your impact

Turn your signature into dozens more by sharing this petition and recruiting people you know to sign.
